PNEUMATIC GRIPPER

ALL-IN-ONE

3 finger

2 finger

TMPlug&Play CERTIFIED

***MCTA-J60** series*	***MCTA-S80** series*

Features

All-in-One

Module design with embedded solenoid valves and sensor switches

Plug & Play

Simple installation
Only one I/O signal cable and one air tube is required

High Performance

The effective external gripping force reaches up to 285 N, which is five times that of an electric gripper

Safety

The wiring is integrated into the body and features a power-off protection mechanism

Eco-Friendly

Manufactured in compliance with RoHS standards, innovative and eco-friendly

Patent

The integrated design has obtained a Taiwan invention patent certificate
