MULTI CONNECTOR SYSTEM

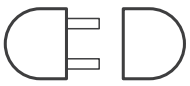

Plug-in Design

EtherNet/IP™

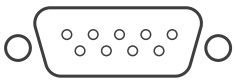

MVJA-156 series

Features

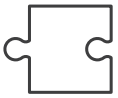

Plug-in Design

Plug-in design for valve and base reduces wiring time and labor costs.

Protocol

The function for communi-cation protocol can be expanded with MVE series.

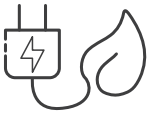

All-in-One

All-in-one valve block can be easier to increase the number of valve blocks.

Signal

The module is compatible with both NPN / PNP.

Power Saving

Low power consumption (0.55W) for solenoid valve.

Simple

Neat and elegant appearance.
